

# The Patstamps TECHNIQUE JUNKIE NEWSLETTER

## Acetate Sparkle Tutorial August/September 2005

*This sparkling technique takes a bit of time to dry, but the end result is worth it! Although I used Stickles, almost any glitter glue will work. For best results, cut the acetate piece before stamping and applying color.*

### Supplies:

- Stamp with large, open areas
- StazOn, Brilliance or Permanent Hybrid Ink
- Acetate, Window Sheet, or Transparency
- Glitter Glue in various colors

### Step One:

Ink stamp with dark ink and stamp directly on acetate.  
Allow ink to dry.

### Step Two:

Turn acetate sheet over (to work on the un-inked side of the sheet).

### Step Three:

Apply glitter glue to the different areas within the stamped image to color as desired.

### Step Four:

After image is completely colored, allow ink to dry. Up to 24 hours may be needed to dry thoroughly. Attach to cardstock layers, glitter side down, using brads, punched corners, Xyron Adhesive, vellum adhesive or vellum Spray.
